Makeup  
Special Effects  
Hairstyling  
Men's Grooming

As a makeup artist in Los Angeles for the past 11 years, I've worked with award winning talent of all races, genders and ages - in front of everything from Super 8 to 8k cameras. My work has been featured in numerous International and National campaigns for some the largest brands. I enjoy jumping from print to film, and beauty to special effects. I always perform in a calm, discrete, and cooperative manner. I arrive to every job prepared, clean, organized and easily able to communicate with the entire team. Passport is valid and I am willing to travel.
