Men's Grooming

As a makeup artist in Los Angeles for over 12 years, I have worked with a broad spectrum of award-winning talent - in front of everything from Super 8 to 8k cameras. My work has been featured in numerous national ads for brands like Neutrogena, Adidas, and the NFL. I enjoy jumping from print to film and beauty to special effects. I always perform in a calm, discrete, and cooperative manner. I arrive to every job prepared, clean, organized and easily able to communicate with the entire team. Passport is valid and I am willing to travel.
